St. Mary's Medical Center (SMMC) is home to the San Francisco Wound Care and Reconstructive Surgery Center, offering comprehensive wound care for patients with both acute and chronic wounds. Every patient and wound is unique and sometimes treatment may require the expertise of several medical specialties.

The San Francisco Wound Care and Reconstructive Surgery Center is an innovative model that provides excellent, continuous wound care to patients. We have three reconstructive plastic surgeons at the core of the treatment process. These surgeons have all of the latest tools and most sophisticated techniques to close any type of wound. Our plastic surgeons also work with other medical specialists to ensure each patient receives the best and most comprehensive care possible.

San Francisco Wound Care Center Specialists:

- Reconstructive Plastic Surgeons
- Endocrinologists
- General & Vascular Surgeons
- Infectious Disease & Internal Medicine
- Podiatrists
- Wound Care Nurse Practitioner

Our Physicians and Nurse Practitioner Treat:

- Slow healing & chronic wounds
- Complex acute wounds
- Pressure ulcers
- Venous stasis & diabetic ulcers
- Abdominal hernias
- Varicose veins
- Lymphedema
- Osteomyelitis
- Neuropathic leg & hand pain
- Venous, arterial leg ulcers
- Diabetic foot ulcers

MEET THE WOUND CARE CENTER'S RECONSTRUCTIVE PLASTIC SURGEONS:

CHARLES K. LEE, MD, FACS

Board Certified: American Board of Plastic Surgery

Education: Dr. Lee received his bachelor's and medical degrees from Washington Univ. School of Medicine in St. Louis. He completed his plastic and reconstructive surgery residency at the Univ. of Chicago and then completed a fellowship in hand and microsurgery at the Buncke Clinic, San Francisco.

DAVID MING YOUNG, MD

Board Certified: American Board of Plastic Surgery

Education: Dr. Young received his medical degree from Yale School of Medicine and completed a fellowship in plastic surgery at UCSF. Currently he is also a Professor of Plastic Surgery at UCSF School of Medicine.

SCOTT HANSEN, MD

Board Certified: American Board of Plastic Surgery

Education: Dr. Hansen graduated from George Mason Univ. and received his medical degree from Eastern Virginia Medical School. He completed his residency at UCSF, where he also completed a research fellowship. In addition, he completed a hand and microsurgery fellowship at UCLA Medical Center.

WOUND CARE NURSE PRACTITIONER

Our center has a dedicated, expert wound care nurse practitioner. Josephina T. Gomez, FNP received her master's in nursing from UCSF and is a certified family medicine nurse practitioner with an extensive background in wound care. Her time is dedicated solely to the wound care center and she is available to facilitate care and follow-up with patients and physicians.

Questions or to schedule an appointment please contact our dedicated, expert Nurse Practitioner (NP) at 415-750-5535 or email sfwind@chw.edu

For more information or to refer a patient, call 415-750-5535.
